Total:£20,762	

Vision for the use of PE and Sport Funding

As a school, we are committed to ensuring our pupils have regular opportunities to engage in sporting activities.

We use the Sports Premium funding to develop and improve the sporting and physical activities that are already on offer and to ensure that pupils in future academic years can benefit from the current years spend.

Objectives for the use of PE and Sports Funding

- To continue to participate in competitive sport through involvement in locality leagues and tournaments.
- To develop further opportunities for physical activities during break and at lunchtimes by ensuring there is an area that encourages pupils to move in new ways through the installation of a new play system.
- To provide high quality sports coaching and CPD for staff through Aspire.
- To teach basic water skills to pupils from a young age (Yr 2) to enable them to feel confident when taking part in more advanced water games and activities.
- To provide daily opportunities for pupils to engage in exercise designed to support their well-being.

Review of PE and Sports Funding 2017-18

Objective	Achieved?	Impact
To continue to participate in competitive sport through involvement in locality leagues and tournaments.	Pupils have taken part in local competitions and sports events.	Pupils have had the opportunity to use skills acquired through coaching sessions in a competitive forum. Pupils have had the opportunity to play with and against a wider group of pupils and levels of ability.
To develop further opportunities for physical activities during break and at lunchtimes by ensuring there is an area that encourages pupils to move	Installation of Play System is an ongoing project £10,000 carried forward to 2018-19 to contribute to larger project	

<p>in new ways through the installation of a new play system.</p>		
<p>To provide high quality sports coaching and CPD for staff through Aspire.</p>	<p>All pupils are taught by professional sports coaches at least once a week. All staff have the opportunity to watch high quality sports teaching.</p>	<p>All pupils are developing well in PE. 100% of Year R pupils met GLD for Physical Development in the summer of 2017 with 100% of pupils on track to meet GLD in the summer 2018. Staff are gaining a greater degree of confidence in delivering a more engaging PE curriculum.</p>
<p>To teach basic water skills to pupils from a young age (Yr 2) to enable them to feel confident when taking part in more advanced water games and activities.</p>	<p>All children from Year 2 to Year 6 had half a term of swimming lessons taught by professional coaches.</p>	<p>All pupils who attended swimming sessions have developed confidence in the water. They are now able to use basic water skills and flotation devices while many are becoming confident swimmers.</p>
<p>To provide daily opportunities for pupils to engage in exercise designed to support their well-being.</p>	<p>All staff received Yoga training and are now certified Yogis.</p>	<p>All children have the opportunity to access Yoga daily for a 20 minute session at 8.30am. Pupils are calmer and more prepared for learning. Behaviour of certain pupils has improved. Mental and physical well-being of pupils who regularly attend is improved.</p>

How will we make these improvements sustainable?

A greater percentage of our children have had the opportunity to take part in locality tournaments and we plan to continue and extend these opportunities as we move into the next academic year. We have now booked more time with the Aspire coaches in order for them to train both a football and a netball team and we hope to set up some locality 'friendly' matches.

We will continue to provide swimming lessons for children from a young age as we feel that this allows them to participate more fully in swimming and water based activities (canoeing/kayaking/sailing etc) once they are older. It will also help to ensure that we fulfil our statutory requirement of all pupils being able to swim 25m by the end of Year 6. As all staff are now trained in Yoga, these sessions will continue to be provided free of charge.
